

# HeySmart

THE HOUSE OF TOMORROW... TODAY

**SMART SOLUTIONS  
FOR YOUR HOME**

# Welcome

## In the intelligent ecosystem of HeySmart

The wireless revolution transforms any system into advanced, connected and easy-to-use home automation

### Discover the advantage of having an AI at your service

From security to thermoregulation, from lighting to automation, HeySmart connects together all your IoT devices in a single intelligent platform accessible to all. Learn from your habits, use weather forecasts to create your perfect comfort, control the light with music; infinite scenarios for infinite possibilities.

### Remote and Intuitive Control

Thanks to HeySmart, you have the power to manage your home wherever you are. Turn on the lights, check and change the temperature, check if the doors and windows are closed; customize the environment to your liking, all with a touch on your smartphone, putting the control of your home literally in your hands, and if connected to voice assistants, you can control all devices with your voice.

### Safe and Sound

With HeySmart, safety comes first. Monitor your home with high definition security cameras, receive real-time notifications and control access remotely. HeySmart offers you the peace of mind of knowing that your home is always safe, even when you are away.

### Smart & Green

The HeySmart ecosystem continues to grow with new products and features that constantly expand the possibilities of your smart home with a careful eye on ecology. Upgrade your lifestyle, make your home smarter and more eco-friendly and live a newest experience with HeySmart.

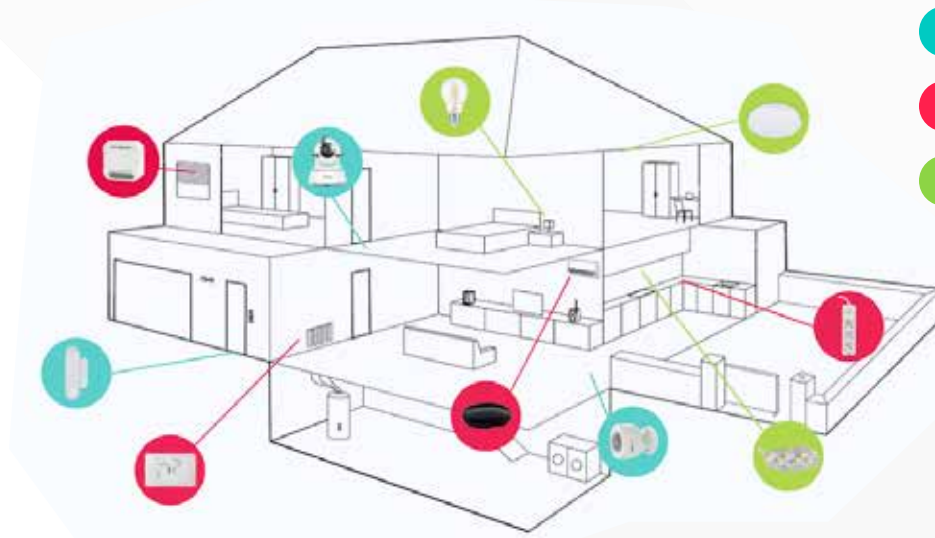

### Easy to Install, Simple to Use

HeySmart is designed for everyone. Installing the products is quick and easy, and the intuitive user interface makes using the app a pleasure. Enter the future of the smart home with HeySmart, where technology merges with your daily life.

# A SMART HOME IS A MUCH MORE PROTECTED AND SAFE HOME

Enjoy your moments peacefully, knowing that you can control and interact with your home wherever you are.

- SECURITY
- AUTOMATION
- LIGHTING

In HeySmart, we believe that IoT technology should make life simpler, more convenient and more efficient. In fact, the HeySmart application and devices are compatible with Amazon Alexa and Google Home voice assistants to control your home with your voice or to create practical scenarios useful to simplify and automate your daily routine.

When your hands are full you won't have to access the application; your voice will be enough to turn on your lights or raise your shutters!

# OUR PLUS

## VIDEO RESOLUTION

Means the video quality through which the images are recorded

## AUDIO

Able to listen to the audio, or if 2 Way, even talk through the camera

## MOVEMENT DETECTION

Means that the device has a built-in PIR detector for an prompt motion recording or digital analysis

## IP PROTECTION

Shows the device is suitable for external and indoor use and the protection grade

## NIGHT VISION

Able to operate at night, in black and white or colours

## MEMORY CARD

Means the maximum capacity of the Memory card (not supplied) the device can support

## TRACKING

Means that the device can record videos following the detected movement

## OPEN WINDOW

The device is able to open door locks and electric gates

## MOTORIZATION AND PATROL

Extend the angle view by rotating the camera both in horizontal and vertical; the patrol function allows to play with pre-set movements

## BATTERY

If the device is battery powered, shows the estimated lasting life in favourable conditions

## VIEWING ANGLE

Shows the maximum viewing width

## ONVIF

The device supports standard ONVIF rules and can be integrated to professional CCT security systems

## HEATING/COOLING

The device can control heating and cooling units.

## BOOST

Quickly heating function

## OPEN WINDOW

The function detects whether a window is open while the heating is running

## TEMPERATURE AND HUMIDITY SENSOR

Allows to maintain a comfortable climate automatically, optimizing energy saving

## PLANNING

Set specific temperatures for different times of the day and adapting them to the days of the week

## MULTICOLOR

Possibility of choosing between millions of colors in a single device.

## MULTICOLOR AND WHITE

Possibility of choosing between millions of colors in a single device, including white light.

## COLOR TEMPERATURE CHANGE

Possibility of choosing the color temperature according to your needs, from white cold to natural and finally warm.

110°

## LIGHTING ANGLE

Means the angle the light beam enlights the environment.

## DIMMING

## INTENSITY ADJUSTMENT

Possibility to adjust the brightness from 0% to 100%.

## MAGNETIC

## MAGNETIC

Means the mounting method.

## GOOGLE HOME AND AMAZON ALEXA

Compatibility with Google Home and Alexa voice assistants allows you to integrate the devices with daily habits and it is also possible to see them on devices compatible with screen.

## PIR TRACKING DETECTION

When the sensor detects a moving subjects, the camera will follow them in all movements.

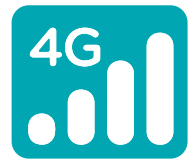

# SECURITY WITHOUT LIMITS

# HeyCamMove4G

MOTORIZED FULL-HD OUTDOOR  
BATTERY 4G CAMERA WITH SOLAR PANEL POWERED

**The surveillance camera that follows you everywhere!**  
HeyCam Move 4G: the ideal surveillance solution in case of no Wi-Fi or power.

You can install it anywhere, from the garden to the house in the mountains, and control everything directly from your smartphone.

Thanks to the 4G SIM slot, it connects independently to Internet, while the integrated rechargeable battery offers up to 2 months of battery life, and if that's not enough, thanks to the included panel it is possible to extend its duration even further.

Even in shaded areas, the 2 meter long cable allows you to find the ideal spot to maximize sun exposure. Full HD video resolution during the day and also at night in color up to 10 meters, combined with 360° movement offers complete surveillance.

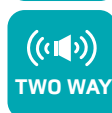

The camera uses an advanced built-in PIR sensor to detect motion, then sends push notifications ensuring precise and trustworthy recordings only if needed. Records 24/7, on schedule or on a motion detection, ensuring continuous surveillance.

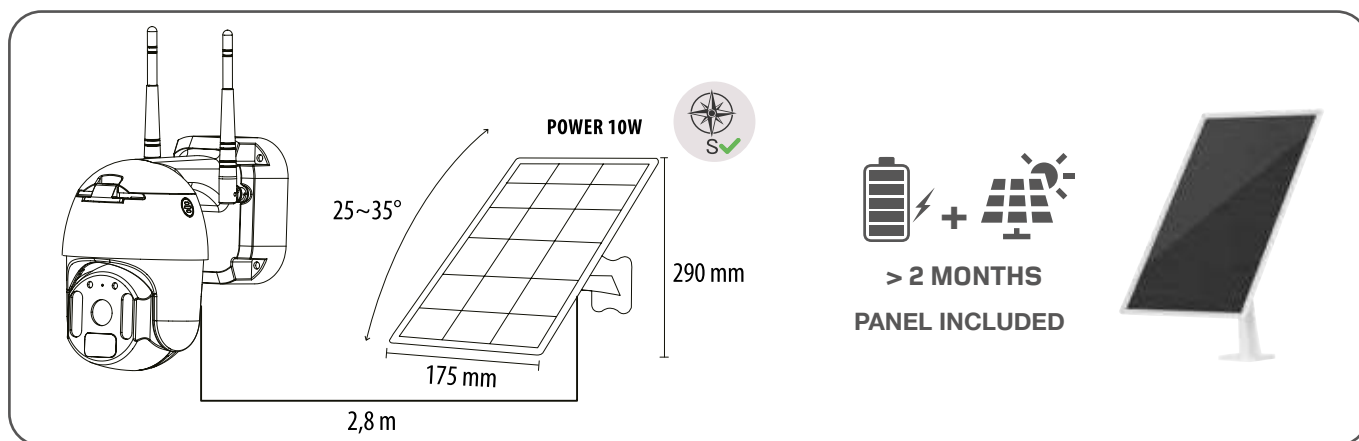

Store videos on micro SD, Cloud server (optional) or manually on smartphone memory.

### Smart security, no limits surveillance.

HeyNVR is a 4-channel wireless SMART video recorder, plug&play, which allows remote management and viewing via the HeySmart APP.

The kit includes two plug&play wireless outdoor metal cameras and a wireless NVR with FULL HD recording in continuous mode, on motion detection or on time programming. The kit is expandable up to 4 cameras (code 67.6839.71) to monitor all the necessary spaces.

HeyNVR connects to the router via RJ45 and sends push notifications in the event of an alarm via the HeySmart app. Furthermore, it is possible to view one or all the cameras live at the same time, take photos, record videos and view the recordings in memory.

Equipped with H.265 encoding software for high resolution images, which are compressed, taking up little space on the hard disk and ensuring more memory for recordings (HDD 3.5" max 4TB not included).

Backup is available via USB or HeySmart APP. With a smart design and two directional antennas, HeyNVR ensures extended coverage and camera positioning flexibility, up to a maximum distance of 100m as the crow flies.

## PLUS

- ✓ **PRIVATE WIRELESS:** Cameras communicate without wires with the NVR using a private Wi-Fi network without any need of configuration.
- ✓ **PLUG & PLAY:** Pre-configured cameras to make installation easier and faster.
- ✓ **HD-PORT:** Easily connect HeyNVR to your monitor or TV via HD cable.
- ✓ **HARD DISK:** H.265 encoding software, HeyNVR optimizes hard disk space, providing more memory for your recordings.

# ANSWER **WHEREVER** **YOU ARE!**

**HeyVideoDoor**

SMART WI-FI VIDEO DOORPHONE  
PLUG&PLAY 4 WIRES

### The smart video Doorphone.

HeyVideoDoor is a video doorphone, that can be connected to the Internet (Wi-Fi + RJ45) and controlled remotely. Perfect for villas, private houses, commercial activities and offices. Consisting of a 7" touch monitor and a FULL HD vandal-proof camera with night vision, it is expandable up to 4 monitors and 2 external units. HeyVideoDoor offers advanced features such as motion detection with video recording, recording of messages in case of absence (directly on micro SD), multimedia functions and audio profiles (home, do not disturb, away). Receive instant notifications on your smartphone when your guest rings the doorbell, allowing you to answer and open the door even when you're not at home, offering you convenience and total control directly from your smartphone.

- External unit dimensions ..... 42x130x30 mm

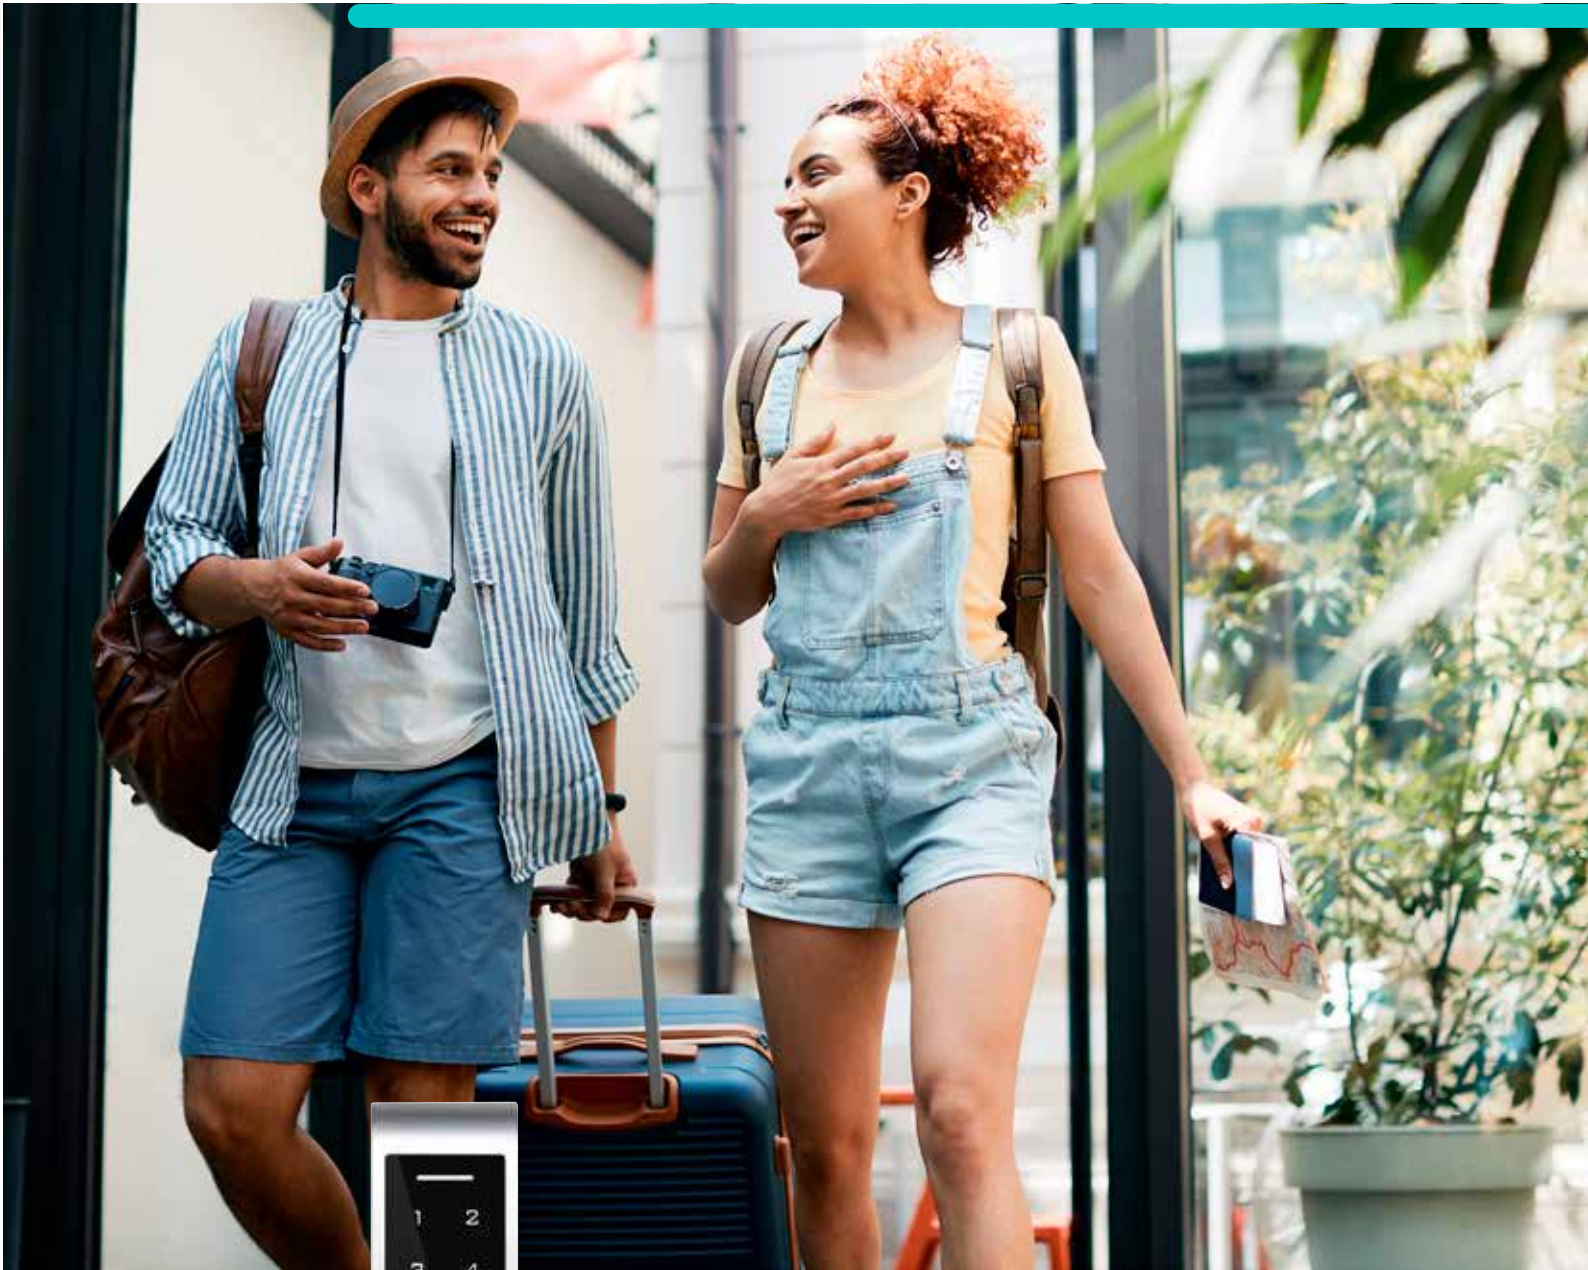

## PLUS

- ✓ **RESOLUTION:** Full HD video.
- ✓ **SURVEILLANCE:** Two way audio, with Talk&Listen function.
- ✓ **MULTIMEDIA:** Monitor can play sounds and display photos directly from micro SD card, creating a welcoming atmosphere with ambient or background sounds.
- ✓ **CCTV:** Wired input for 2 analog cameras up to 2MP resolution.
- ✓ **EXPANDABLE:** Up to 4 monitors and 2 external drives.
- ✓ **DOUBLE RELAY:** Double independent dry contact relay (NO/NC) for electric lock or control unit of an electric gate.

# MANAGE YOUR GUESTS' ENTRANCE

IDEAL FOR B&Bs AND SHORT RENTALS

HeyOpen

SMART WI-FI DOOR OPENER  
FOR ELECTRIC LOCKS

### Open the doors to smart security!

HeyOpen is your professional and intelligent tool for access control, both for private homes and accommodation facilities like B&Bs or companies. HeyOpen connected to an electric lock, offers various dedicated functions guaranteeing maximum flexibility both remotely via the HeySmart app and on site via PIN codes or proximity cards.

With the HeySmart app, you can view your complete login history with dates, times and entry methods used; add or remove standard and admin users, assign codes and cards, and set access rules for specific times and days for up to 200 users.

It's perfect for your B&B. With HeySmart, you can to generate disposable codes or codes with timed validity, simplifying the check-in and check-out process for your guests without the need to use physical cards or require registration in the app.

HeyOpen is resistant, with a vandal-proof metal structure, it is also perfectly suited to installation in outdoor environments.

The keyboard is soft-touch, backlit and equipped with an internal anti-tamper buzzer.

With the built-in doorbell button, you will receive open request notifications. HeyOpen is equipped with a dry contact relay (NO-COMNC), which allows you to connect the contacts of the gate control units or automations in a simple and parallel way.

Even in lack of a Wi-Fi connection, it works as a local

reader via PIN or card, maintaining the settings memorized to ensure operational continuity. Compatibility with the Amazon Alexa voice assistant adds a level of convenience and security, in fact you can open the door with your voice, but only after setting a voice PIN to ensure maximum protection.

## I PLUS

- ✓ **WIEGAND:** Compatibility with Wiegand interface for maximum security.
- ✓ **WIRED BELL:** Wired input for integration of the external bell.
- ✓ **DUAL POWER SUPPLY:** Also in AC Power for continuous reliability.

# HeyBox

## BATTERY POWERED SMART WI-FI SAFEBOX

HeyBox is a Smart safety storage box with vandal-proof metal body, remotely controlled and battery powered. It is possible to manage it locally via Bluetooth or if connected to the Wi-Fi Gateway (supplied), you can do it wherever you are. Setting up is simple, once you secured the keys or any other object you need, just set a code and provide it to your guest for a smarter check-in and check-out of your business.

With the HeySmart app, you can fully control authorized users and their access codes, managing them with expiration dates and time.

### PLUS

- ✓ **VANDAL PROOF:** Vandal-proof and outdoor resistant metal body.
- ✓ **TIMED CODES:** Set a different code for each user, for the time you need.
- ✓ **INSTALLATION:** Wall mounting, better in safe and hidden areas for greater security.

#### HEY BOX

Cod. 68.6810.20

- Power supply ..... 4 x AAA batteries (not included)
- Operating voltage ..... 4~6 Vdc
- Battery type ..... Alkaline, lithium or rechargeable
- Emergency power input ..... USB Type-C emergency
- Material ..... Aluminum alloy + ABS
- Average battery life ..... 1 year
- IP Rating ..... IP X5
- Operating temperature ..... -10°C ~ +50°C
- Dimensions ..... 105 x 145 x 55 mm
- Weight ..... 650 g

#### GATEWAY:

- Power ..... 5V 1A
- Wi-Fi ..... 2,4GHz
- BLE protocol ..... Support local use

## SMART WI-FI PEEPHOLE VIEWER FOR ARMORED DOORS

Cod. 67.6884.70

- Power..... Battery / TypeC
- Battery ..... 5000mAh
- Display ..... 4,3" IPS
- MicroSD..... Yes (Max 128GB)
- Audio ..... Bi-directional
- Camera resolution..... FULL HD 1920x1080p
- Image sensor..... 2MP CMOS
- Angle of view ..... 145°
- Night Vision ..... Infrared
- Motion detection..... Microwave radar
- Motion detection range ..... Up to 5m
- Recording mode..... Motion detection / Manual
- Wi-Fi ..... 2,4GHz
- Door thickness ..... 30 ~ 110 mm
- Peephole dimension ..... 15 ~ 50 mm
- Camera material..... Zinc alloy
- Camera outdoor diameter ..... 32 mm
- Monitor dimension ..... 116 x 91 mm

### Your security window.

HeyDoor is more than a peephole for armored doors: it is an intelligent Wi-Fi security system that does not require external power, it runs on (rechargeable) batteries.

A large internal display allows you to clearly see who is in front of the door clearly and from your smartphone.

The HeyDoor camera structure is in metal with small dimensions and its design is easy to hide.

Full HD resolution and automatic night vision capability ensure always clear vision. Thanks to the highly reliable Radar sensor it detects movement up to 5 meters, automatically recording the video of the event on a micro SD card and sending instant notifications via the HeySmart app. Furthermore, you can also view the live video, access the recordings made and also turn off the sensor when don't want to be disturbed.

## PLUS

- ✓ **DISPLAY:** Clear View HD resolution 4.3 inches
- ✓ **NIGHT VISION:** Record in the dark without being noticed, LEDs remain invisible even at night.
- ✓ **SURVEILLANCE:** Two way audio, with Talk&Listen function
- ✓ **CAMERA:** It blends in completely with the traditional peephole without noticing the difference.
- ✓ **INSTALLATION:** Quick and simple, brackets and screws are supplied.

**PROTECT

LOVED ONES**

# HeyAlarm

SMART ALARM KIT  
WI-FI + GSM

## Your home safe, connected to tranquility.

HeyAlarm is the ideal Wi-Fi smart alarm solution that adapts to all your needs.

Our kit includes everything you need for quick installation: central panel with keypad and display, magnetic door and window sensors, a PIR motion sensor and a keychain remote control.

It is Plug&Play, therefore ready to use as soon as you fix it to the wall. By connecting to Wi-Fi, you can easily configure the system via the HeySmart app and manage alarm or maintenance notifications.

To feel safer, insert a SIM to receive calls and SMS in case the internet doesn't work. In the event of an alarm,

## PLUS

- ✓ **READY TO USE**
- ✓ **WI-FI + GSM:** Continuous protection thanks to dual Wi-Fi and GSM connectivity, ensuring the reception of alarm calls and SMS even in the absence of Wi-Fi.
- ✓ **DOUBLE BACKUP BATTERY:** Up to 8 hours of autonomy in the absence of power.
- ✓ **CONTROL PANEL:** Includes keyboard and display for immediate local configuration.

## WHAT DOES THE KIT CONTAIN?

**CENTRAL PANEL  
OF ALARM**

**REMOTE CONTROL**

**DOOR/WINDOW  
SENSOR**

**INDOOR PIR**

In the event of an alarm, you can activate not only the internal siren but also the external one if configured; HeySmart sends a notification to all users also dial an emergency call to the owner, followed by an alarm SMS, even in the event of Wi-Fi failure via the SIM card.

In the event of a power failure, HeyAlarm warns you, continuing to guarantee safety for up to 8 hours thanks to the backup batteries.

Increases 360° security, expandable up to 10 remote controls and 60 accessories configurable through the HeySmart app.

You can also share this controlling system via smartphone, with your family and roommates.

HeyAlarm is also compatible with Alexa and Google Home voice assistants.

**Cod. 67.6832.55**

- Power supply ..... 12V  $\approx$  1A
- Battery ..... 2x 3,7V 800mAh
- Battery life ..... Up to 8h
- GSM Frequency ..... 850 / 900 / 1800 / 1900 MHz
- Standard Wi-Fi ..... IEEE 802.11b/g/n
- Wi-Fi frequency ..... 2,4 GHz
- Transmission frequency ..... 433,92 MHz
- Radio range (open area) ..... 80 m
- Integrated siren ..... 95 dB
- Operating temperature ..... -10 ~ +55 °C
- Related humidity .....  $\leq$  80%

# EXPAND THE KIT WITH ACCESSORIES

## OPTIONAL ACCESSORIES

REMOTE CONTROL

DOOR/WINDOW SENSOR

INDOOR PIR

OUTDOOR PIR

INDOOR SIREN

OUTDOOR SIREN

OUTDOOR SOLAR SIREN

### REMOTE CONTROL (Cod. 67.6832.61)

Additional/spare radio control. Anti-theft remote control for quickly arming and disarming the system, with additional functions such as Home mode and SOS. Equipped with integrated anti-tamper tamper for greater security. Compatible with HeyAlarm (67.6832.55).

### DOOR/WINDOW SENSOR (Cod. 67.6832.67)

Magnetic sensor for doors and windows with spacers and double-sided fixing tape included for easy installation. Equipped with integrated anti-tamper tamper for additional protection. Compatible with HeyAlarm (67.6832.55).

### INDOOR PIR (Cod. 67.6832.71)

Indoor PIR motion sensor with PET IMMUNE technology, designed to prevent false alarms caused by the presence of pets (weighing less than 25 kg). Includes a built-in anti-tamper tamper system to ensure security. Compatible with HeyAlarm (67.6832.55).

### OUTDOOR PIR (Cod. 67.6832.73)

External motion sensor. Equipped with PET IMMUNE system to avoid false alarms from pets under 20 kg. Includes anti-sabotage tamper and anti-blinding system. Complete with wall support. Compatible with HeyAlarm (67.6832.55).

### INDOOR SIREN (Cod. 67.6832.84)

Indoor siren, powered by 220V with internal backup battery. Wireless connection to the alarm control panel. Possibility of installing multiple sirens on the same system. The audible alarm, with a 95dB speaker, is audible even from a distance.

Compatible with HeyAlarm (67.6832.55).

### OUTDOOR SIREN (Cod. 67.6832.85)

Outdoor siren, battery powered with charging via solar panel. Wireless connection to the alarm control panel. Equipped with built-in anti-sabotage tamper and possibility of installing multiple sirens on the same system. The audible alarm, with a 100dB speaker, is audible even from a distance. Compatible with HeyAlarm (67.6832.55).

### OUTDOOR SOLAR SIREN (Cod. 67.6832.82)

Outdoor siren, powered by 12Vdc with internal backup battery. Wireless connection to the alarm control panel. Equipped with built-in anti-sabotage tamper and possibility of installing multiple sirens on the same system. The audible alarm, with a 95dB speaker, is audible even from a distance.

# Hey Sense

## SMART WI-FI

### DOOR/WINDOW SENSOR

HeySense is a battery-powered Wi-Fi smart magnetic sensor, ideal for monitoring the opening and closing of doors and windows.

Thanks to the HeySmart app, you will receive instant push notifications on your smartphone whenever an opening or closing is detected. Notifications are fully customizable through the app, allowing you to receive alerts for opening only, closing only, low battery alerts, or both. Additionally, HeySense can be integrated with other smart devices to create custom automations. For example, you can configure it to turn on a light when a door is opened or to turn off the heating if a window is opened.

Cod. 67.6800.67

- Power supply .....2x AAA 1,5V (not included)
- Standby consumption.....<45 uA
- Consumption in alarm.....<130 mA
- Wi-Fi .....2.4GHz
- Max contact distance .....<15 mm
- Operating temperature ..... 0°C ~ +45°C
- TX dimensions.....70x21x24mm
- Magnet dimensions .....41x18x15mm

# Hey Move

## SMART WI-FI

### PIR SENSOR

Hey Move is a battery-powered Smart Wi-Fi PIR sensor, designed to detect movement, tampering or temperature changes. Thanks to the HeySmart app, you will receive instant push notifications on your smartphone whenever motion is detected. You will be able to integrate HeyMove with other devices in the HeySmart world to create personalized scenarios and control it remotely wherever you are. For example, you can control the lights when the sensor detects movement, or lower the shutters when a selected temperature is reached.

Cod. 67.6800.61

- Battery power supply.....2x CR123A (included)
- USB power supply .....5Vdc 1A
- Wi-Fi frequency .....2,4 GHz
- RF range .....45 m
- PIR range.....10 m
- Dimensions.....68x56x56 mm
- Weight.....10 g

# Hey Water

SMART WI-FI ANTI-FLOOD SENSOR  
FOR INDOORS

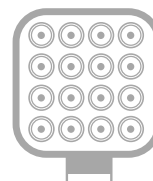

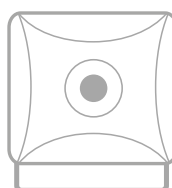

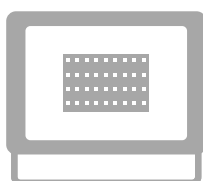

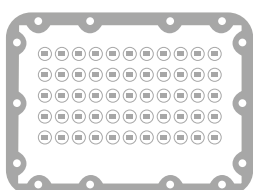

Hey Water is a battery-powered Smart Wi-Fi flood sensor, designed to detect the presence of water on hard or soft surfaces, such as floors and carpets. It is particularly suitable for basements, kitchens and bathrooms. When water creates conduction between the two detection probes, HEY WATER activates the internal buzzer and sends a notification to the Hey Smart app. It is recommended for monitoring environments where there are water-sensitive equipment, such as washing machines, water heaters, dishwashers, sinks and humidifiers.

Cod. 67.6800.75

- Power supply ..... 2x AA (not included)
- Wi-Fi frequency ..... 2,4 GHz
- Alarm sound level at 1m ..... >85 dB
- Alarm mode ..... 3 short beeps + flashing LED
- Operating temperature ..... 4 - 38°C
- Operating humidity ..... <80%RH
- IP Grade..... IP65
- Dimensions..... Ø 80x37 mm
- Weight..... 120 g

on  
light is on

## LED FLOODLIGHTS

SOLARLEDPRO - NIGHTLED - NIGHTTUNE - NIGHTGUARD - FLASH48SPECIAL

# Hey Gas

## SMART WI-FI METHANE GAS DETECTOR

Cod. 67.6800.78

- Power supply ..... 100 - 240V ~ 50/60Hz
- Wi-Fi frequency ..... 2,4 GHz
- Detected gas ..... Natural gas methane CH4
- Alarm sound level at 1m ..... >70 dB
- Alarm mode ..... Repeated beep + flashing LED
- Auxiliary output voltage ..... 11 - 13V 0,5A
- Operating temperature ..... -10 + 55°C
- Umidità operativa ..... <95%RH (non-condensing)
- Dimensions ..... 89,5x89,5x38 mm
- Weight ..... 125 g

HeyGas is an innovative Wi-Fi power-powered methane gas leak detector, equipped with an optical-acoustic signal and a system for sending push notifications via the HeySmart app. Thanks to the integrated high sensitivity sensor, HEY GAS is able to detect the dangerous concentration of methane gas. If detected, it immediately activates the internal siren and sends push notifications to the HeySmart app via the user's Wi-Fi line, ensuring timely alert in the event of an emergency. Furthermore, the device has an auxiliary output for managing a valve (optional), allowing the gas supply to be blocked in case of emergency. This auxiliary output can also be monitored and managed remotely via Wi-Fi with the HeySmart app.

# Hey Smoke

## SMART WI-FI SMOKE DETECTOR

Cod. 67.6800.76

HeySmoke is a Smart Smoke sensor, suitable for homes and offices, working with photoelectrical technology for greater sensitivity in detecting dangers. HEY SMOKE is battery powered, can be installed in any room (with the exception of the bathroom). In case of emergency, it emits a powerful warning sound (about 85dB) and sends a push notification to the HeySmart app. The flashing LED ensures immediate visibility even in emergency situations. Installation should be done in compliance with local regulations.

- Power ..... 3Vdc (1x CR123A / CR17335 LITHIUM)
- Visual alarm signal ..... LED indicator
- Sound alarm signal ..... Beep Buzzer
- Sound level ..... > 85dB (at 3m straight ahead)
- Wi-Fi band of frequency ..... 2,4 GHz
- Battery life ..... Up to 2 years
- Working temperature ..... 0°C to +45°C
- Installation ..... Wall surface / Ceiling
- Dimensions ..... ø 86 x H34,5mm

**HeyThermo+**

SMART WI-FI THERMOSTAT

## KEY FEATURES

### SUMMER REVERSAL

You can easily reverse the thermostat's operation via the app or touch panel to activate cooling systems during the warmer months.

### ANTIFREEZE

Automatically activates antifreeze mode when it detects minimum temperatures to protect pipes from corrosion or freezing.

### HOLIDAY MODE

Set a default temperature for a specific period (up to 30 days) without changing the normal schedule. Useful for saving energy and find a comfortable return at home.

### CHILD/GUEST LOCK

Through the app or panel, you can activate the panel lock to prevent accidental changes. This function is also useful to prevent guests or external staff from adjusting the temperature without authorization.

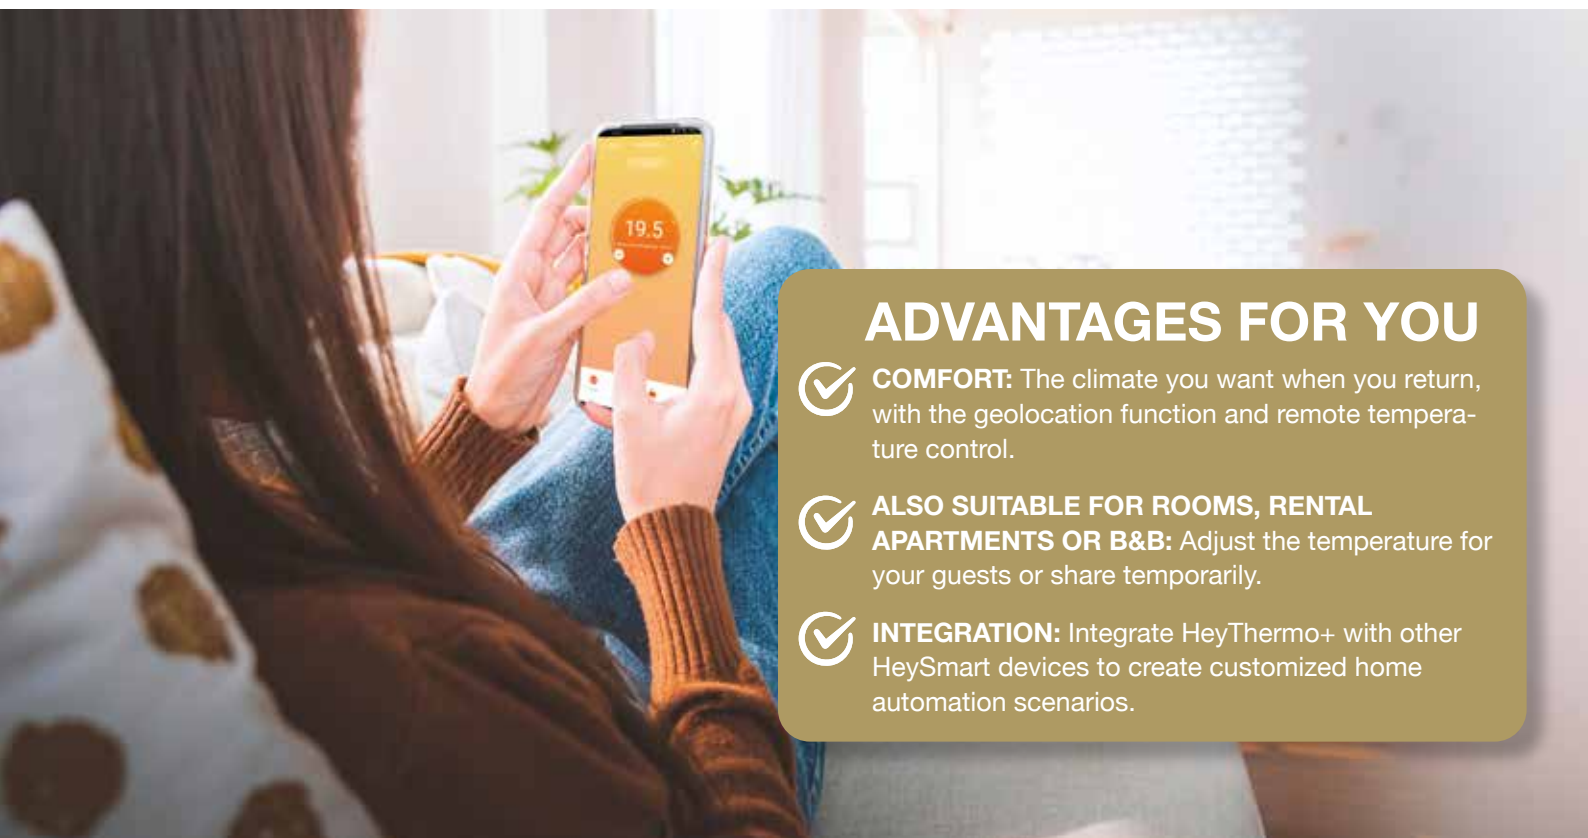

Cod. 49.6830.35 - BLACK

Cod. 49.6830.34 - WHITE

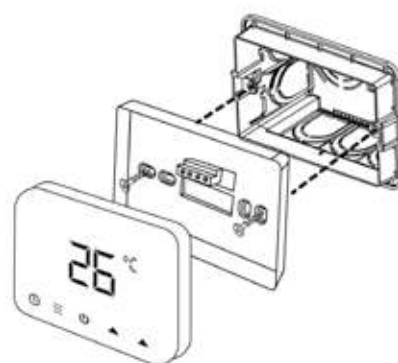

## ADVANTAGES FOR YOU

- ✓ **COMFORT:** The climate you want when you return, with the geolocation function and remote temperature control.
- ✓ **ALSO SUITABLE FOR ROOMS, RENTAL APARTMENTS OR B&B:** Adjust the temperature for your guests or share temporarily.
- ✓ **INTEGRATION:** Integrate HeyThermo+ with other HeySmart devices to create customized home automation scenarios.

Cod. 49.6830.34 White / Cod. 49.6830.35 Black

- Power supply ..... 90 ~ 240V
- Operating temperature ..... +5 ~ +35 °C
- Accuracy.....0,5°C
- Passive relay ..... Max 5A
- WI-FI .....2.4GHz
- Installation .....Wall mount on box 503
- Dimensions.....130x90x29 mm

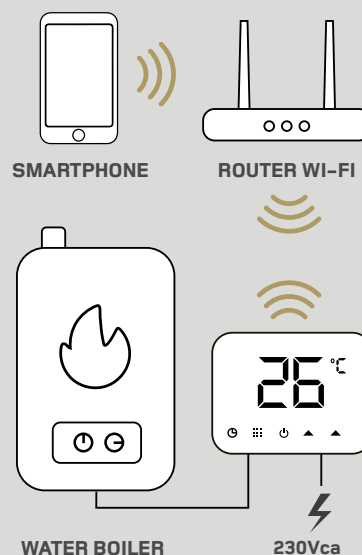

IDEAL FOR

### INDEPENDENT OUTPUTS

Give each one a name and manage them with Google or Alexa, activating or deactivating them simply with your voice.

### POWER METER

Monitor and reduce energy consumption

### PHYSICAL BUTTON:

In case of network failure or in emergency, manage your device manually.

## Manage your outdoor spaces in Smart mode

With load power up to 2000W, it allows you to control your outdoor devices.

Connect HeyPlug Out to the power and easily configure it via the HeySmart app to manage irrigation systems, garden lights, decorative fountains, all by smartphone. The two independent sockets allow you to program ON and OFF, set timers and plan weekly actions, offering you flexibility and convenience.

Compatible with voice assistants such as Amazon Alexa and Google Home.

## WIRING DIAGRAM

## Powerful in control, within reach of your voice

HeyRelé is an advanced home automation module, which incorporates a dry contact relay. It manages with precision and safety a wide range of electrical systems such as lighting, actuators, pumps, motor control units and electric locks. With its versatility, you can manage and automate any device or system to make it smart. Powered by 230V and equipped with an input for manual control via button, installable on DIN rail (support included) or recessed, HeyRelé becomes an essential addition to your smart home. Connect it to the Wi-Fi network and via the HeySmart app, control and manage the action of the relay contact remotely. For example, you can set the duration of opening of a gate with an electric lock for the arrival of the cleaner or the return of the children home, then programming the timer to open or close the contact according to your needs. Compatible with voice assistants such as Amazon Alexa and Google Home.

## ADVANTAGES FOR YOU

**INTEGRATION:** Allows you to integrate third-party Zigbee devices within the HeySmart family to create customized home automation scenarios.

# HeyGateway

## ZIGBEE GATEWAY FOR REMOTE CONTROL

## KEY FEATURES

### BRIDGE

Makes any Zigbee device remotely controllable

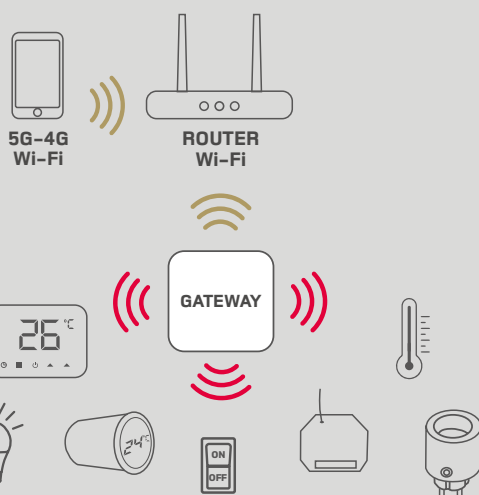

### THINK BIG

Ideal for large systems, using Zigbee technology it is possible to connect multiple devices without overloading the Wi-Fi network

Powered via USB cable and power supply included, it connects to the HeySmart app via Wi-Fi and directly from your smartphone, you can adjust color change, shades, dimming or manage timed or group switching. It is perfect for any environment: living room, bedroom, lounge, even for parties and events. Compatible with Alexa and Google Home voice assistants..

# CREATE THE PERFECT ATMOSPHERE FOR EVERY OCCASION

ON Smart bulbs are innovative devices that integrate technology with lighting to offer a series of advanced and practical features. The range offers two alternatives based on needs.

**The CCT Filament LED series** offers the possibility of choosing the shade of white you prefer to light up the environment.

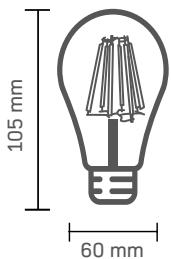

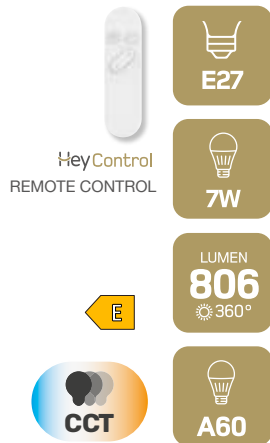

**The RGB+CCT LED Series**, on the other hand, allows you to create infinite plays of light by choosing from millions of colours, from party or soft light modes to synchronization with music. To complete the functions it is also possible to simply choose the favorite shade of white to create uniform and welcoming environmental lighting.

Smart bulbs can be integrated with other smart home devices and voice assistants, allowing users to control them via voice commands or create customizable scenarios.

BOX

Cod. 23.6832.10

- Socket: E27
- Shape: Edison
- Type: ST64
- Power: 7W
- Equivalence: 50W
- Light type: Warm
- Color temperature: 2200 °K
- Lumen: 600 lm
- Dimmable: Yes
- LED type: Filament
- Lighting angle: 360°
- Coverage: Transparent
- Color rendering index: (CRI) 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + Mesh
- Wi-Fi frequency: 2.4 GHz

### HeyControl

ON/OFF DIMMING WI-FI  
REMOTE CONTROL FOR  
SMART BULBS

x15

ON/OFF

PACKAGING:  
BOX

Cod. 23.6835.00

- Radio frequency: 2,4 GHz
- Indoor range: 20m
- Outdoor range: 50m
- Pairable devices: 15
- Power supply: 2x AAA
- Weight: 50g

## Hey Candle

### SMART WI-FI LED BULB CANDLE

HeyColor+

E14

4,8W

LUMEN  
470  
360°

C37

PACKAGING:  
BOX

Cod. 23.6835.11

- Socket: E14
- Shape: Candle
- Type: C37
- Power: 4.8W
- Equivalence: 40W
- Light type: RGB + CCT
- Color temperature: 2700-6500 °K
- Lumen: 470 lm
- Dimmable: Yes
- Efficiency: 75 lm/W
- LED type: SMD
- Lighting angle: 180°
- Coverage: Milky
- Color rendering index (CRI): 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + BLE
- Wi-Fi frequency: 2.4 GHz

A65

PACKAGING:  
BOX

Cod. 23.6835.23

- Socket: E27
- Shape: Drop
- Type: A65
- Power: 11W
- Equivalence: 75W
- Light type: RGB + CCT
- Color temperature: 2700-6500 °K
- Lumen: 1050 lm
- Dimmable: Yes
- LED type: SMD
- Lighting angle: 200°
- Coverage: Milky
- Color rendering index (CRI): 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + BLE
- Wi-Fi frequency: 2.4 GHz

Cod. 23.6835.24

- Socket: E27
- Shape: Drop
- Type: A65
- Power: 14W
- Equivalence: 94W
- Light type: RGB + CCT
- Color temperature: 2700-6500 °K
- Lumen: 1400 lm
- Dimmable: Yes
- LED type: SMD
- Lighting angle: 200°
- Coverage: Milky
- Color rendering index (CRI): 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + BLE
- Wi-Fi frequency: 2.4 GHz

PACKAGING:  
BOX

Cod. 23.6835.42

- Socket: GU10
- Shape: Spot
- Type: GU10
- Power: 5W
- Equivalence: 25W
- Light type: RGB + CCT
- Color temperature: 2700-6500 °K
- Lumen: 400 lm
- Dimmable: Yes
- LED type: SMD
- Lighting angle: 120°
- Coverage: Milky
- Color rendering index (CRI): 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + BLE
- Wi-Fi frequency: 2.4 GHz

## HeyGlobe

### SMART WI-FI LED BULB GLOBE G95

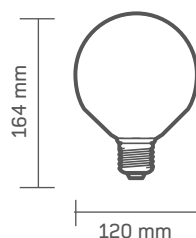

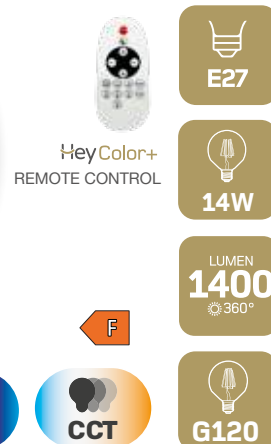

Cod. 23.6835.31

- Socket: E27
- Shape: Globe
- Type: G95
- Power: 11W
- Equivalence: 75W
- Light type: RGB + CCT
- Color temperature: 2700-6500 °K
- Lumen: 1050 lm
- Dimmable: Yes
- LED type: SMD
- Lighting angle: 200°
- Coverage: Milky
- Color rendering index (CRI): 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + BLE
- Wi-Fi frequency: 2.4 GHz

## HeyGlobe

### SMART WI-FI LED BULB GLOBE G120

Cod. 23.6835.35

- Socket: E27
- Shape: Globe
- Type: G120
- Power: 14W
- Equivalence: 94W
- Light type: RGB + CCT
- Color temperature: 2700-6500 °K
- Lumen: 1400 lm
- Dimmable: Yes
- LED type: SMD
- Lighting angle: 200°
- Coverage: Milky
- Color rendering index (CRI): 80
- Power supply: 230 Vac
- Average ignition cycles: 7500
- Average life: 15000 h
- Connection: Wi-Fi + BLE
- Wi-Fi frequency: 2.4 GHz

## LED BULBS

# HeyColor+

HEY SMART BULBS  
REMOTE CONTROL

PACKAGING:  
BOX

Cod. 23.6835.06

- Batteries: 2x AAA 1,5V (not included)
- Frequency band: 2.400 ~ 2.480MHz
- Dimensions: 105 x 50 x 15 mm
